Starting a Business in St. Lucie County

St. Lucie County Local Business Tax Receipt Ordinance Number 07-016 requires that all businesses or professions located in St. Lucie County obtain a County Business Tax Receipt. All businesses operating within city limits, by law, must obtain City and County Business Tax Receipts to operate legally. Unless you obtain both Receipts you will be considered in violation of the Local Business Tax Receipt Ordinance.

A Local **Business Tax Receipt (BTR)** is a miscellaneous tax imposed by local government, in accordance with county ordinance, which also charges the Tax Collector with the responsibility of collection and disbursement of fees. It is the responsibility of the business owner to obtain all necessary permits, licenses, and local business tax receipts to legally engage in business in the State of Florida. The State of Florida and the cities within St. Lucie County, all have specific legal requirements that must be met prior to the issuance of a county Business Tax Receipt.

Here are the basic steps to get started:

- If you are using a name other than your legal first and last name only, you must register with the [Florida Division of Corporations](#). (DBA, Fictitious Names)
- You will need to find out the jurisdiction in which your business is located. You can go to St. Lucie County Property Appraiser's website <https://www.paslc.gov/> and search the address of your location to determine if it is in the unincorporated area of St. Lucie County, City of Fort Pierce, City of Port St. Lucie, or St. Lucie Village.
 - If located within the City of Port St. Lucie, you must receive your City of Port St. Lucie Business Tax Receipt. (772)344-4356 <https://www.cityofpsl.com/>
 - If located within St. Lucie Village, you must receive your St. Lucie Village BTR. (772)466-6900 <https://stlucievillagefl.gov/>
 - If located within the City of Fort Pierce, you must receive your City of Fort Pierce Business Tax Receipt. (772)467-3053. <https://www.cityoffortpierce.com/>
- If located in the unincorporated area of St. Lucie County, the additional following are required:
 - Fire Inspection
 - [Zoning Compliance from Planning and Zoning](#)
 - [Hazardous Waste Screening from the Health Department](#). If it is a home-based business, Hazardous Waste Screening is not required.
 - Tangible Personal Property Tax

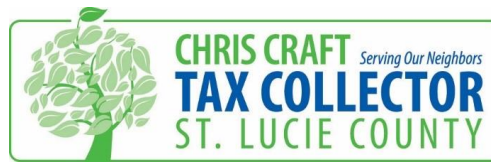

NOTE: If you are working from your home, you must still meet applicable state and local requirements before obtaining a county business tax receipt.

- [Business Tax Receipt](#) - If your business is regulated by a state or county agency, a copy of your current license or certification must be submitted with your application.

Who must pay the business tax?

- Any person or business entity operating a business located in St. Lucie County must obtain a Business Tax Receipt (BTR). If the business location is within the city limits, a city-issued Business Tax Receipt is required, as well. Some "location-bound" BTR's require the customer getting the City BTR prior to applying for St. Lucie County's BTR.
- Anyone who provides merchandise or services to the public, even if only a one-person company or home-based business, must obtain the Business Tax Receipt.

Who is exempt from the business tax?

1. Veterans of the United States Armed Forces who are honorably discharged upon separation from service, or the spouse, or un-remarried surviving spouse of such a veteran. (Florida supports veterans who pursue a professional or business license by reducing the related costs. Please visit for more information.

What if I buy an existing business?

If you purchase an existing business, you will need to submit a new St Lucie County BTR application, required documents and a copy of the Bill of Sale. If your occupation is regulated by the Department of Business Professional and Regulation, State of Florida, or any other regulatory boards, you must present a corrected copy of the certification or registration showing the changes before the Business Tax Receipt may be transferred.

What if I have multiple locations?

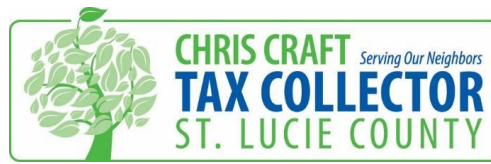

You will need one Business Tax Receipt for each location from which you are operating your business (and for each category of business you are conducting).

What if I don't pay the renewal fee before October 1?

Florida Statutes provide that a late renewal must include a penalty of 10% for the month of October, plus an additional 5% penalty for each month of delinquency thereafter until paid, not to exceed 25% of the business tax. If you conduct business without a Business Tax Receipt, you will be subject to a penalty of 25% of the tax due plus additional penalties. In addition, operating without a Business Tax Receipt is a misdemeanor punishable by a \$250 fine if not in compliance within 150 days of notice of the amount due.

Types of Business Entities/Structures:

Corporation:

- A corporation is an independent legal entity that exists separately from the people who own, control, and manage it.
- It does not dissolve when its owners (or shareholders) die because it is considered a separate “person.”
- A corporation can enter contracts, pay taxes, transact business, etc.
- The owners have limited liability.

Contact an attorney or an accountant to determine if this structure works for you.

Limited Liability Company:

- A limited liability company (LLC) is like a corporation, but with slight differences.
- Like a corporation, it offers limited personal liability.
- An LLC is not required to hold regular stockholder or management meetings, and there are no requirements to comply with other corporate formalities.

Contact an attorney or an accountant to determine if this structure works for you.

General Partnership:

- A partnership where the rights and responsibilities are divided equally among the partners.
- The partners are referred to as general partners because each partner can act on behalf of all the partners, and each partner is responsible for the partnership’s debts and obligations.

Contact an attorney or an accountant to determine if this structure works for you.

Limited Partnership:

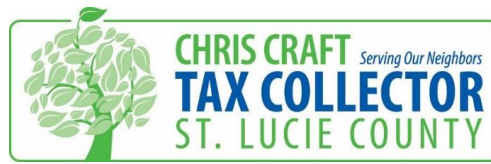

- A partnership composed of both general and limited partners.
- This type of partnership allows each partner to determine and/or limit his or her personal liability.
- Unlike general partners, limited partners are not responsible for the partnership’s actions, debts, and obligations.
- General partners have the right to manage the business. Limited partners do not.
- Both general and limited partners benefit from the business’s profits.

Contact an attorney or an accountant to determine if this structure works for you.

Sole Proprietorship:

- A sole proprietorship is the simplest and most common structure chosen to start a business.
- It is an unincorporated business owned and operated by one individual with no distinction between the business and the owner.
- Sole proprietorships, when not operating under the owner’s legal name, must register a fictitious name with the Division of Corporations.

If the business name on the Business Tax Receipt is anything other than the legal name of the owner(s), it must be registered or re-registered as a **Fictitious Name** with Florida Division of Corporations. Division of Corporations can be reached at (850)245-6058 or www.sunbiz.org
